BOGE S series screw compressor, including its additional equipment, is exclusively intended for the compression of air. The air taken in must not contain any explosive or chemically instable gases or vapours. Do not exceed the specified final compression temperature. BOGE screw compressors are designed for stationary operation.

Operating instructions

The BOGE C series is a trendsetter in its class: less noise, less pipework, less connections in contrast to more output, more individual configuration possibilities and more efficiency and requiring a minimum of space only. We have listened closely to the wishes of our customers – with the C series we provide the air to work.
