Flight 143 Article.pdf - Google Docs

Air Canada Flight 143 was a Canadian scheduled domestic passenger flight between Montreal and Edmonton that ran out of fuel on July 23, 1983, at an altitude of 41,000 feet, midway through the flight. The flight crew successfully glided the Boeing 767 to an emergency landing at a former Royal Canadian Air Force base in Gimli, Manitoba that had been turned into a motor racing track. This unusual aviation incident earned the aircraft the nickname "Gimli Glider". The accident is commonly blamed on m
