Biobehavioral Approach was written to educate health care providers with both a big-picture view and clinical pearls to guide practice. It does so successfully and uniquely. It is rare to find such a comprehensive yet detailed review of a body of knowledge by two of its leading scholars and scientists.

Chronic pain is common among persons with type 2 diabetes (T2D) and negatively affects T2D self-management (SM).

Chronic low back pain (cLBP) is the most frequently reported painful condition, affecting approximately 37% of patients with T2D and surpassing the prevalence of painful diabetic neuropathy.
