Ethylene Glycol Handling Guide

Right here, we have countless book ethylene glycol handling guide and collections to check out. We additionally allow variant types and after that type of the books to browse. The tolerable book, fiction, history, novel, scientific research, as with ease as various additional sorts of books are readily manageable here.

As this ethylene glycol handling guide, it ends taking place innate one of the favored ebook ethylene glycol handling guide collections that we have. This is why you remain in the best website to see the amazing ebook to have.

Emergency and First Aid Procedures Inhalation: In case of accident by inhalation: remove casualty to fresh air and keep at rest. Eyes: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

~~Ethylene Glycol Safety Data Sheet~~

When handling the chemical always wear personal protective equipment. Protective eye-wear, proper clothing, and gloves should be standard PPE when handling chemicals. Never breathe in mist or vapors from Ethylene Glycol. This chemical is highly combustible, so when storing, always keep away from heat and fire.

~~Ethylene Glycol - US EPA~~

Ethylene glycol (IUPAC name: ethan-1,2-diol) is an organic compound widely used as an automotive antifreeze and a precursor to polymers. Ethylene glycol is toxic, and ingestion can result in death. Ethylene glycol is not to be confused with diethylene glycol, a heavier ether diol, or with polyethylene glycol, a nontoxic polyether polymer.

Pure ethylene glycol freezes at about -12°C (10.4°F) but, when mixed with water, the mixture freezes at a lower temperature. For example, a mixture of 60% ethylene glycol and 40% water freezes at -45°C (-49°F). Diethylene glycol behaves similarly.

~~Ethylene glycol - Wikipedia~~

Ethylene glycol or propylene glycol, for freeze protection Water is nature's heat transfer fluid, a liquid used for centuries to provide heating and cooling. It freezes at 32°F and boils at 212°F . To extend this range, other chemicals like ethylene glycol and propylene glycol are added.
