Based Practice For

Occupational

Occupational therapy is a science-driven profession that applies the most up-to-date research to service delivery. Evidence supports the effectiveness of adding an occupational therapy practitioner to your patients' or clients' treatment plan. According to systematic reviews from AOTA's Evidence-Based Practice Occupational Therapy Practice Guidelines, evidence shows that the

Evidence-Based Practice -
AOTA

Evidence-based practice (EBP) is one of the driving forces in current healthcare practice. Occupational therapists recognise the need for research and for an evidence-based approach to interventions, but can need guidance on how to do this. This book aims to make evidence-based practice accessible and relevant to occupational therapists using examples from therapy practice.

Evidence-based Practice for Occupational Therapists ...

This literature review completed by the AOTA Evidence-Based Practice Project provides evidence that correlates occupational therapy treatment techniques, re-engagement in daily activities, and return to work. The incorporation of daily activities and return to work in the design of the review ensures that this study is occupation-based.

Work & Industry Evidence-Based Practice Resources.
Evidence-based practice (EBP) is based on integrating critically appraised research results with the practitioner's clinical expertise, and the client's preferences, beliefs, and values. To promote EBP, AOTA has developed a number of resources to help members find and utilize clinically relevant literature to respond to both their clients' needs and external demands for information from the scientific literature.

Evidence-Based Practice &
Research - AOTA

Evidence-based practice is required to show service commissioners and purchasers that occupational therapists are using treatments supported by research. This provides assurance that the treatment occupational therapists provide to their clients is based on the latest research before they commission and pay for your services.
