In design, a grid is a system for organizing layout. The layouts could be for print (like a book, magazine, or poster), or for screen (like a webpage, app, or other user interface). There are a lot of different types of grid, and they all serve different purposes. Here are some of the main examples: Baseline grid.

Organize graphic elements in a rational, easy-to-absorb manner. A grid can be used to organize graphic elements in relation to a page, in relation to other graphic elements on the page, or relation to other parts of the same graphic element or shape. The less-common printing term "reference grid," is a
