Secret Life of the Teenage Brain, Sarah-Jayne Blakemore, explains what happens inside the adolescent brain, and what her team's experiments have revealed about our behaviour, and how we relate to each other and our environment as we go through this period of our lives. She shows that while adolescence is a period of vulnerability, it is also a time of enormous creativity - one that should be acknowledged, nurtured and celebrated.

'Inventing Ourselves' will help you to understand why adolescents think and behave the way they do. Along the way it provides you with an evidence base from which to understand how adolescence is a critical developmental stage in understanding who we are as individuals and as social beings. I strongly recommend this excellent book.
