SQL command for inserting or adding a row of data into the MySQL database table is `INSERT`. The format is as follows: INSERT INTO table_name (column_1, column_2, ... column_n) VALUES (value_1, value_2, ... value_n); To insert a row of data into table, `INSERT` keyword is followed with keyword `INTO` and a name of the table. Following column names in the parenthesis and separated by commas is optional, but is a good practice to define the columns to be sure that the proper data will be ...
