Statistical Process Control (SPC): Reference Manual ...
Statistical Process Control (SPC) is a method of quality control in which statistical methods are employed. SPC is applied in order to monitor and control a process and in the automotive sector is often used to minimize waste which can result in rework or scrap. It is one of the Core Tools used in automotive industry and referred to in IATF 16949.

IATF 16949:2016 Statistical Process Control (SPC) training ...
"Statistical Process Control" is an effective method of monitoring a process through the use of control charts. In general, if a process exceeds the limits, we assume that it's out of control and the project team should search for special causes to deal with it. There are many
